

A misty forest scene with a path leading through trees. The path is a light-colored dirt or stone trail that curves through the forest. On the left, there are several tall, dark evergreen trees. On the right, there are several birch trees with white bark and dark lenticels. The background is filled with more trees, all shrouded in a thick mist or fog. The overall atmosphere is serene and quiet.

Fir, fir, fir -  
birch, birch, beech, birch, pine -  
and all the rest.  
Not a tree in the forest.

Fir, fir, fir -  
birch, birch, beech,  
birch, and pine they be.  
Not a single tree in the forest I see.

Fir -  
Where does it start?  
Where does it end?
